	score
This meeting has been useful for me.	4.85
I would recommend this course to colleagues	4.85

**Additional comments/suggestions:**

Excellent Course. Cannot recommend highly enough.  
 Many thanks. Enlightening. Lots of things you didn't know and felt uncomfortable about asking seniors.  
 Thank you for organising this great course. Very informative and relevant. Great value for money.  
 Excellent Course. Very informative. Answered a great deal of questions. The only thing missing was an overview of NHS structures, which I know other courses have.  
 Accommodation was very cold. College dinner was poor. Would have rather gone to the pub.  
 Fantastic course. Very relevant to practice.  
 Excellent course. Very informative and useful.  
 Excellent review. A complete toolkit for starting as a consultant.  
 An absolutely fantastic course. A lot of new information that I was never told about as a doctor for the last 12 years. Many thanks.  
 Fantastic course. Great faculty. Wonderful venue. Helpful tips and advice.  
 Eye opening course.  
 Excellent programme. One of the most varied and very good value. Perhaps slightly biased towards surgical specialities, but that doesn't detract. I would certainly recommend it.  
 I enjoyed Prof Canter's talk. However, I felt it dominated too much time.  
 Very enjoyable course.  
 Many thanks.
