Fantastic course

Exceptionally well organised and held in a wonderful venue

All speakers were enthusiastic and engaging

I thought the course was absolutely excellent

My only criticism was that it was very surgical. I know that you should teach what you know, and the lessons are generally applicable, but still

Perhaps a session on how to get into medical management, eg: medical director, chief exec

You might want to add a section about how to deal with pts with doubtful mental capacity who refuse cancer surgery

A great thanks to the faculty

The materials, delivering the topics and sharing personal experiences are highly appreciated

Just to ask, are there any challenges for non-UK trained new consultants in your opinion, and if so then suggest to be included in future

# Comments from delegates

Thoroughly enjoyable and informative course. Well organised and structured. Refreshing to have some non-powerpoint sessions!

Very well structured course  
relevant to practice

Best feature: sharing of experiences in a very honest and candid manner

excellent speakers, especially richard who was excellent  
if less urology / device talks would be a very desirable course for all trainees and I suspect you would get increased interest and numbers

very good course. Thank you

an excellent well organised course  
refreshingly different from any other management course that I have attended  
the format timetable works well and allows for sufficient breaks  
the college supper was fabulous. MANY THANKS

Great course. Thank you very much

# Comments from delegates

excellent course. Friendly organisers and speakers  
No doubt will be useful

excellent course exactly what I needed prior to strating my new consultant post  
Many thank for the book and the links to all the talks  
Beautiful venue

Thanks for valuable information

Leadership workshop: would be very helpful to pass more advice about implementing the material into practice

Challenges of obtaining new equipment: slightly too complex. Maybe involve other specialities to allow acceptance by a wider audience

Excellent. A friend recommended it to me, and I will thank him. Thank you
