- Overall an excellent 2 days with great content
- Excellent course. Practical course tailored perfectly to our future careers.
- Excellent course. Thank you.
- Nice that industry paid attention to sustainability. Interactive morning sessions. Might be beneficial to also schedule some more assessments/interaction to the afternoon of day1. Provide handouts in the start of the course to be able to make notes next to the slides.
- Was recommended this course by a colleague. Perfect content. Would highly recommend. Really good periCCT. Only thing I would change is in advertising highlight dinner and accommodation as that came by surprise!
- lack of parking was an issue. Otherwise course was great.
- Fantastic course. Highly relevant. Learnt a lot about myself. V well organised. Good food and venue. (Parking on site would have been ideal). Thanks for organising.
- Great course. Definitely worth doing. Would highly recommend it. Food was especially good!
- The course is highly recommended. It teaches the non-clinical aspects of medicine which are relevant to everyday practice. It has certainly improved by understanding of leadership and management.
- Top quality speakers and presentations. Very useful material covered for future consultants and transferable for many areas of life in general.
- Excellent breadth of contents. Very helpful to have informal discussions.
