- Accommodation was quite poor. Event venue for day 1 and half of day 2 was very hot. Othwise, a very well organised and useful course.
- It was unusually hot day in Oxford unfortunately
- good
- Air conditioning please
- The room we were in was roasting, and it was frustrating that we we moved to a lecture theatre for the final session which had air con! My room also had a leak from the room above which made the floor wet. Shower drain was blocked and flooded the whole bathroom after a 2 minute shower! I have reported this to the reception lodge

Any overall feedback for the event?

- Well organised, appreciate your time and effort
- Use similar hall we used for the last set of discussions next time due to the heat
- I would happily recommend this to colleagues nearing consultant level.
- Great course, thank you!
- Instrumental in preparing for life as a Consultant
- Nicely organised course delivered at the right level for senior trainees. Provided a useful forum for questions more awkward to deal with locally
- Excellent course, will definitely recommend to colleagues
- It's a great course, urology themed, covers all the management and consultant planning you need as an ST7. An engaged and knowledgeable faculty who took the time to talk to the delegates as well outside teaching sessions. Lots of ability to ask formal and informal questions
- Perhaps additional info re consultant interview
